

# Rockpile, Teacher Teacher

Young love, teacher's pet  
Cheeks flushed, apple red  
Ringing you every day  
Begging for a word of praise  
I've put aside my foolish games  
I run and hide and callin' names  
School's out, the bells'll ring  
Now's the time to teach me everything

Teacher, teacher, teach me love  
I can't learn it fast enough  
Teacher, teacher, teach me more  
I've got to learn to love for sure

Lesson one, just begun  
Growing up ain't much fun  
Grown up, out of school  
Out of luck and out of rules  
No one there to tell me how  
A different world, teacher teach me now

Teacher, teacher, teach me love  
I can't learn it fast enough  
Teacher, teacher, teach me more  
I've got to learn to love for sure

Lesson two, nothing new  
I can't love, just passing through

Books I read don't understand  
What it means to be a man  
I need a woman just like you  
Teacher, teacher, teach me what to do

Teacher, teacher, teach me love  
I can't learn it fast enough  
Teacher, teacher, teach me more  
I've got to learn to love for sure

Teacher, teacher, teach me love  
I can't learn it fast enough  
Teacher, teacher, teach me more  
I've got to learn to love for sure

Teacher, teacher, teach me love  
I can't learn it fast enough
