Rodney Atkins, Uncomplicated

I want a woman that knows her own mind That says whatever Let's have a good time, have a good time

Don't live her life out of some magazine Just a simple girl, simple dreams Uncomplicated

One life, one love Sounds so easy, but it's so tough One dance only one time around

I like a truck, not too much chrome Something kinda old That you can still work on, still work on, and gets you back home

I take my coffee no sugar no cream I've got a wardrobe T-shirt and jeans Uncomplicated

One life, one love Sounds so easy, but it's so tough One dance only one time around

Why make it harder than it all ready is When you can have it, have it like it is Uncomplicated

One life, one love Sounds so easy, but's so tough One dance only one time around
