

# Rodney Carrington, Masterbate

I was 12 years old when I learned to masterbate  
I was peekin through my brothers door staring at his date  
She wasn't fine but I didn't care and I barely had any pubic hair  
Long as she moved hell that's ok with me

When your 12 years old your dick will grow whenever the wind starts to blow  
It's had to explain but the feelings great  
Lord I love to masterbate  
Just grab ahold and don't let go  
You can do it fast or you can do it slow  
When you get through hell do it again  
You might even want to show your friends....how to masterbate
