

# Roger Clyne & The Peacemakers, Easy

Well I don't smoke no more, but I'll smoke with you  
I don't drink no more, so let's just have one or two  
But I don't know how you got through security,  
You picked all my locks by being so low key  
I've never been easy, but I'll be easy for you  
I'll be easy for you  
I don't think much, but I can't stop thinking 'bout you  
I don't know much but now I know that no one else will do  
I don't know how you got through security  
You picked all my locks by being so low key  
I've never been easy, but I'll be easy for you  
I'll be easy for you

Well baby, what am I up to, getting back into  
Another thing I said I'd never do, woah no

I don't smoke no more, but I'll smoke with you  
I don't drink no more, so lets just sit down and have a few  
I don't think much, but I can't stop thinking 'bout you  
I don't know much, but now I know that no one else will do

Baby, I don't know how you got through security,  
You picked all my locks by being so low key  
I've never been easy, but I'll be easy for you

I'll be easy for you  
I'll be easy, baby, let me be easy for you
