

Roger Clyne & The Peacemakers, Sleep Like A Baby

the sun would shine upon my face
if I could only slow this pace
but I will not see the light today
things to do and bills to pay

in my dreams
I will sleep like a baby

brother is that your rifle there?
and do you know the man
in the middle of the crosshairs?
no I do not know my
enemys name
so much easier to kill
him that way
in my dreams
I will sleep like a baby

I will take the long way home
I will take the long way home....

the sap is rising in the trees
and I will fall upon my knees
'cause the songbird tells me as she sings
machines can not make sweeter dreams

in my dreams
I will sleep like a baby
