

# Roger Creager, A Feeling I Get

Roger Creager

You ask me how I'm feeling down deep inside  
It's not something I'm holding back or trying to hide  
My love for you is not easily explained  
There's more than the moon and stars and the warm summer rain

Well it's a jalapeno pepper on a cheesy enchilada  
Spicy side of life, just a little bit hotter  
An ice-cold cerveza on a hot summer day  
Takin' you out to eat and makin' love on the way  
It's not knowin' where you're goin' but knowin' when you're there  
Bein' with the ones that you know really care  
Hey I guess these are all a part of it  
It's a feeling I get  
It's a feeling I get

Now you look at me so deeply like you've got something to say  
You wanna tell me how you feel, but don't wanna sound cliché  
You have a strange way of sayin' how you feel  
Ah, but when you put it that way  
How can I doubt that it's for real?

It's like 99 degrees in the Texas summer heat  
Underneath a tree, spittin' watermelon seeds  
Eatin' old fashioned ice cream with mama and your pa  
Ridin' on the tractor in your panties and your bra  
It's not knowin' where you're goin' but knowin' when you're there  
Bein' with the ones that you know really care  
Hey I guess these are all a part of it  
It's a feeling I get  
It's a feeling I get

Look into our future and tell me what you see  
We'll always be together as long as we wanna be  
I know we'll make it through somehow  
Just look at what we're both feelin' right now

Well it's a jalapeno pepper on a cheesy enchilada  
Spicy side of life, just a whole bit hotter  
An ice-cold cerveza on a hot summer day  
Takin' you out to eat and makin' love on the way  
It's not knowin' where you're goin' but knowin' when you're there  
Bein' with the ones that you know really care  
Hey I guess these are all a part of it  
It's a feeling I get  
It's a feeling I get  
It's a feeling I get  
It's a feeling I get  
YEAH
