

# Roger Creager, Love

Love ain't what this songs about  
Candle light ain't what I'm in the mood for now  
I don't need a metaphor to help me get this out  
Love ain't what this songs about

Chorus:

It's about beer and whiskey and drinkin  
It's about playin the fool and acting without thinking  
It's about runnin with your buddies who don't give a damn  
What in the world happens to you man  
No love aint what this songs about

Crying ain't what your gonna hear  
You won't have any salty tears drownin in your beer  
And if your feelin down then friend you better just steer clear  
No crying ain't what your gonna hear

It's about wine and women and song  
It's about doing one thing and makin sure your doin it wrong  
It's about giving in to your deepest desire  
Setting the whole damn world on fire  
No crying aint what your gonna hear

Love ain't what this songs about  
The worlds got you trapped and friend theres no way out  
So give in to your deepest desire and set this whole damn world on fire  
No love aint what this songs about
