## Roger Daltrey, Get Your Love

How long must I sit around waiting you Think of all the heartache You been putting me through You must have a soul But it don't show Come on and love me Let me know

Come and get your love (Get your love) Come and get your love, before I give it away

(Come and get it)

You're a devil witch And I'm hypnotized But woman I could see right through your eyes Here's something for you (I Can't) Take it from me Why don't you love me? Or set me free

Or come and get your love (Get your love) Come and get your love before I give it away

(Come and get it)

(Come on baby, get your love) (Come on baby, get your love)

I've been holding on To your love for so long Could be I would tie you up The face I admire So why don't you say Just go away

Or come and get your love (Get your love) Get your love (Get your love) Come and get your love (Get your love) Come and get your love (Get your love) Come and get your love before I give it away

(Come and get it)

Come on get down come and get your love (Come and get it) Get your love oh baby (Come on baby get your love) Here I am (Come on baby get your love) Waiting for you (Come on baby get your love) Get your love (Come on baby get your love) How long (Come on baby get your love) Must I sit around (Come on baby get your love) Waiting for you (Come on baby get your love) All you gotta do (Come and baby get your love)
