

# Roger Daltrey, Just A Dream Away

(Russ Ballard)

And when I need you, I close my eyes  
Then everything, never world be nice  
Well it's all hidden in my head.

And in the night when the hurt is deep  
Somehow I know when I go to sleep  
That you'll be standing there.

Just a dream away  
Passing time away  
To another day  
Only a dream, they say.

And when it's over I dream again  
The wise man say that it's all in vain  
But do wise men go insane.

And if I say that I could exist  
Call me a fool but I still insist  
That it's all in my head.

Just a dream away  
Passing time away  
Oo to another day  
Only a dream, they say.

(Guitar Solo)

Just a dream away  
Passing time away  
To another day  
Only a dream, they say.

Just a dream away  
Passing time away  
Oo to another day  
Only a dream, they say.

Just a dream away  
Just a dream away  
Just a dream away  
Oo Just a dream away  
Just a dream away
