My time is wasting  
feel I'm moving too slow  
Can't get my pedal to the metal  
But I'm ready to go.  
Live in the fast lane  
there's trouble ahead  
better move over  
you're a long time dead

I'm chasing rainbows  
in the cold light of day  
feels like I'm wasting  
my lifetime away  
Breaking the limits  
bending the rules  
can't stand standing still  
but speed is for fools

Chorus

I move better in the night  
I won't stop til the day light  
It makes me feel right  
I move better in the night.  
Out on the freeway  
everybody pays  
throw in my money  
or I'm waiting for days.  
I'm overheating  
ready to burn  
there's dirt on my wheels  
but they're ready to turn.

Chorus

Fender to fender  
nose to tail  
mind over matter  
I just can't fail  
lights going down  
give me some more  
come on I'm ready to roar

Chorus
