

# Roger Daltrey, Written On The Wind

I realise my mistake  
I couldn't live up to the things I'd said and I'd believed in  
And I appreciate you waiting  
When it rained  
Lover-friend  
Again

Always learning something new  
Especially through me and you, it can be stormy  
But spring returns like a new lover-friend again

North south  
East west  
Up down  
I'm glad I found you  
Rise fall  
Great small  
Your name's written on the wind

I know at times things get tough  
And no to you is not enough for you to give in  
It's your living  
That makes you dear to me  
Ever so clear to see

North, south  
East, west  
Up, down  
I'm glad I found you  
Rise, fall  
Great, small  
Your name's written on the wind

North, south  
East, west  
Up, down  
I'm glad I found you  
Rise, fall  
Great, small  
Your name's written on the wind

Though I send this song in time and space  
To reach the very special place that only feeling  
To love you  
Time and time again  
Til the end of the end and written on the wind

North, south  
East, west  
Up, down  
I'm glad I found you  
Rise, fall  
Great, small  
Your name's written on the wind

North, south  
East, west  
Up, down  
I'm glad I found you  
Rise, fall  
Great, small  
Your name's written on the wind

North, south

East, west  
Up, down  
I'm glad I found you  
Rise, fall  
Great, small  
Your name's written on the wind
