

Roger Hodgson, Don't You Want To Get High

When will you walk through my door?
When will the clouds disappear?
When will the story unfold?
When will there be no more tears?

But it's okay, you say
Don't you want to get
don't you want to get high?
Sing Lord knows, let go
Don't you want to get,
don't you want to get high?

Smile though the world feels so cold
Sing though there's no one to hear
Dream so the story unfolds
Laugh so there'll be no more fear

Cause it's okay, you say
Don't you want to get,
don't you want to get high?
Sing Lord knows, let go
Don't you want to get,
don't you want to get high?

gold'Cause you're on your way-
you know I'll say today
Hey - don't you want to get -
don't you want to get high?
Sing Lord there's a way -
your love will save the day
Hey - don't you want to get -
don't you want to get high?
