

# Roger Miller, Our Little Love

Our little love no longer is our little love is gone  
Our little love no longer lives I'm so blue so poor and so haunt  
And so I guess my little heart is watchin' my call one of the breaks of the game  
Broken in two feeling blue since our little love ain't the same  
I gave to you a part of my heart but you threw your part away  
Leavin' me forgotten just wonderin' what in the world makes my baby do me this way  
Our little love no longer is...  
Our little love no longer is...
