

Roger Miller, That's The Way I Feel

Did you ever feel unwanted
Kicked around so much you're taunted
Heart cries out with so much pain
Well that's the way I feel

I loved someone and loved her dearly
Spoke sweet words, she didn't hear me,
Left me here heart-sick and lonely
That's The Way I Feel

To cry would do no good
I used to think it would
But the more I cried
The more I believed here's what I'll do
Let this feeling have it's day
Maybe it will go away
Maybe I will find another
That's the way I feel

I can't let heartache overcome me
Just because of the way she done me
I'll forget I ever loved her, that's the way I feel

To cry would do no good
I used to think it would
But the more I cried
The more I believed here's what I'll do
Let this feeling have it's day
Maybe it will go away
Maybe I will find another
That's the way I feel

I can't let heartache overcome me
Bust because of the way she done me
I'll forget I ever loved her, that's the way I feel

Yes I'll forget I ever loved her, that's the way I feel
