

# Rogue Wave, Lake Michigan

heaven is a switchboard that you want to fight  
she would even miss you if you taught her sight  
power politician leaning to the right  
baby's got a trust fund  
that she'll want to go off like that  
get off of my stack  
leave a little window  
get off of my stack

now we wear same-colored yellow uniforms  
sky is burning  
but at least we know we're warm  
go and run yourself a million miles  
hoping that the colors run out  
and you go off like that  
get off of my stack  
leave a little window  
get off of my stack

you can never see yourself  
ringing all around it

no one is on lake michigan  
you labored on, lake michigan

not another payoff  
get off of my stack  
leave a little window  
get off of my stack  
you know it won't do  
get off of my stack
