

Roisin Murphy, Fader

They won't choke the life out my vein jokes
The fun'll go on, oh, oh yeah
I'll meet my maker, sometime a little later
In the meantime
To you I belong
There's no pain without the gains of feeling something true

Free bird, I can swerve and I can swoop (Keep on, keep on, keep on, keep window shopping, baby)
I lay eggs every single time I think of you (Keep on, keep on, keep on, keep window shopping, baby)
Only free birds flying high (Keep on, keep on, keep on, keep window shopping, baby)
Could decide to ride to Venus, break the physical laws of time (Keep on, keep on, keep on, keep w

I'm your favourite baby, this could sustain me
You should play a love song, you can't play a love song, why? Oh, baby
Take your hands off, hater off my baby's fader
When it comes to this song, you can't play it too long, oh oh
Off to meet my maker when I'm good and ready (Keep on, keep on, keep on, keep window shopping, baby)
Won't stay here too long, no, can't play here too long, no, no, can't play it (Keep on, keep on, keep

Don't you move a muscle, you've got the music (Keep on, keep on, keep on, keep window shopping, baby)
I leave it to you to play in a way to make me fall in love (Keep on, keep on, keep on, keep window shopping, baby)
(Keep on, keep on, keep on, keep window shopping, baby)
(Keep on, keep on, keep on, keep window shopping, baby)
(Keep on, keep on, keep on, keep window shopping, baby)
(Keep on, keep on, keep on, keep window shopping, baby)
