

# Roisin Murphy, If We're In Love

If were in love  
If were in love  
If were in love

If were in love  
If were in love  
If were in love  
We should make love

Where the sun it never sets  
And where the wind forgets  
I will forget you  
Where the sky goes on for miles  
And never ties  
Of an improbable blue  
When the supreme mysteries  
Decide to reveal all to us  
And make an endless night  
Still I will come to remember

If were in love we should make love  
If were in love we should make love  
If were in love we should make love  
When will we be lovers?

If were in love we should make love  
If were in love we should make love  
If were in love we could make love  
When will that be?

Im gonna forget you  
When the rivers stop and turn to run  
To where theyve begun  
Back up the mountainside  
When the sun it comes to the night to play  
And like I do just sleep all day  
When the moon and the stars turn to the light  
Not in the dark of night  
But in the morning sky  
When the roses turn to bloom  
Not in June  
But in the bitter cold of December  
Theres not a  
Theres not a joy in this whole world to give  
Theres not a joy  
As lovely as the bird that flew away

Last night I  
Last night I  
I think I dreamt a  
Beautiful song  
But when I woke  
The birds had flown  
And it was gone

If were in love we should make love  
If were in love we should make love  
If were in love we should make love  
When will we be lovers?

If were in love we should make love  
If were in love we should make love  
If were in love we could make love  
When will that be?

If were in love we should make love  
If were in love we should make love  
If were in love we should make love  
When will we be lovers?

If were in love we should make love  
If were in love we should make love  
If were in love we should make love  
When will that be?

If were in love  
If were in love

If were in love we should make love  
If were in love we should make love  
If were in love we should make love  
When will we be lovers?

If were in love we should make love  
If were in love we should make love  
If were in love we could make love  
When will that be?

If were in love we should make love  
If we  
If were in love we should make love  
If we  
If were in love we should make love  
When will we be lovers?

If were in love we should make love  
If were in love we should make love  
If were in love we should make love  
When will that be?
