

# Roisin Murphy, Primitive

From the primordial soup  
Out of the dim and the bloom we came  
We are animal  
By any of the name

From the primordial soup  
Out of the dim and the bloom we came  
We are animal  
One on broken chain

I need to cut you out of your cave, man  
I need to let you out of your cage and set you free  
If tonight's the night  
I'm gonna show you I ain't got no game playing

Out from under a rock  
From a prehistoric sea we crawled  
We are animal  
Animal one and all

Out from under a rock  
From the prehistoric sea we came  
We are animal  
Animal, one unbroken chain

I know what you're searching for  
I pray that you find it on the instinct  
I, I don't need you hurt in, boy  
Animalistic

I need to cut you out of your cave, man  
I wanna let you out of your cage and set you free  
If tonight's the night  
I wanna show you I ain't got no game playing

I need to get you out of your cave, man  
I wanna let you out of your cage and set you free  
If tonight's the night  
I wanna show you I ain't got no game playing

If you call out tonight  
And hear the call of the wild reply  
You are animal  
Animal not so deep inside

If you call out in vain  
Everyone of us's just the same  
We are animal  
Dare not speak its name

I know what you're searching for  
I pray that you find it on the instinct  
I, I don't need you hurt in, boy  
Animalistic

I need to get you out of your cave, man (primitive)  
I wanna let you out of your cage and set you free  
If tonight's the night  
I wanna show you I ain't got no game playing  
Primitive love for me

I need to get you out of your cave, man (primitive)  
I wanna let you out of your cage and set you free  
If tonight's the night

I wanna show you I ain't got no game playing  
Primitive love for me
