

# Roisin Murphy, Somebody somewhere

Yeah yeah yeah yeah  
Youve got something to hide  
The party is humming  
Something theres something inside  
Makes you act like youre slumming  
All right I might give you a try  
But I know that Ill live to regret it  
Go on spin me a line  
I have cause to expect it  
Lead me then lead me astray  
Romeos tend to have eyes that stray  
What will you say? what will you say?  
What will you say when I ask you to stay?  
Someone somewhere  
Theres more to you than meets the eye  
Someone somewhere  
Someone somewhere you left behind  
Sweet child learn to relax  
Its already decided  
Sit back dont tamper with fate  
Our stars have collided  
Would you dance with me baby  
The party is swinging  
Dont just whistle the tune  
When you should be singing  
Easy momaceeta  
Lay down next to me  
Inside there somewhere your spirit is free  
Frigid little bridget  
Lay down next to me  
Youre shaking, youre waking  
Your spirit is free  
Someone somewhere  
Theres more to you than meets the eye  
Someone somewhere  
Someone somewhere you left behind  
Someone somewhere  
Theres more to you than meets the eye  
Someone somewhere  
Someone somewhere you left behind  
Your spirit is free  
Your spirit is free, baby  
Listen to me  
Your spirit is free baby  
Yes my spirit is free  
It just wont let me be  
Im empty. Im hungry  
My spirit is free  
Ready me. ready me  
Ready me to receive  
I believe, I believe.  
Yes my spirit is free  
It just wont let me be  
Im empty. Im hungry  
My spirit is free  
Ready me.  
Ready me to receive  
I believe, I believe, I believe  
Your spirit is free  
Your spirit is free, baby  
Someone somewhere  
Theres more to you than meets the eye  
Someone somewhere  
Theres more to you than meets the eye

Someone somewhere  
Theres more to you than meets the eye  
Someone somewhere  
Theres more to you than meets the eye  
Someone somewhere  
Someone somewhere  
Someone somewhere  
Someone somewhere  
Someone somewhere  
Someone somewhere  
Someone somewhere
