

# Rolling Stones, Fancyman Blues

(Jagger/Richards)

You're looking good baby  
I love to see my baby smile  
You're looking good baby  
I love to see my baby smile  
You say you love me now but  
You've got another man on the side

You're always hungry  
You always want to drink  
I love you so much baby  
But I begin to think  
Come here baby  
I can see the glint in your eye  
You say you love me now but  
You've got a fancyman on the side

I love to dance with my baby  
I love to while away the time  
I love to dance with my baby  
I love to while away the time  
You've got some new steps now  
You've got a fancyman on the side

You're looking good baby  
I love to see my honey smile  
You're looking good baby  
I love to see my baby smile  
You say you love me now but  
You've got a fancyman on the side
