## Rolling Stones, If You Need Me

(Bateman/Pickett)

If you need me Why don't you call me Said if you need me Why don't you call me Don't wait too long When things go wrong I'll be there, yeah Where I belong Said if you want me Why don't you send for me Said if you want, want, want All you gotta do is send for me Don't wait to long Just a pick up your phone I'll be there Right there, where I belong People always told me, darling That you didn't mean me no good But I know deep down in my heart I done the best I could And one of these days, darling It won't be long You're gonna come walking through that door And I know in my mind these are the very Words you're gonna say to me I still love you Always thinking of you I still love, love, love Always thinking of you Don't wait too long When things go wrong I'll be there, right there Where I belong
