

# Rolling Stones, Suck On The Jugular

(M. Jagger/K. Richards)

Been keeping cool  
Been lying low  
Been dancing smooth  
And dancing slow  
Keeping myself to myself  
My nose is clean  
But I'm a man  
Not a machine  
All get together and feel alright  
All get together and rock all night  
All get together and feel alright  
Okay  
Get ready  
For sure  
Okay  
Let's go  
Suck on the jugular  
Love to change my shape  
And change my name  
Want to get out of myself for a while  
Don't feel no shame  
I love men to be men  
And women women  
On special occasions  
Diving and dipping  
All get together and feel alright  
All get together and fuck all night  
Alright  
Give me  
For sure  
Okay  
Let's go  
Suck on the jugular  
Okay  
Let's go  
Alright  
Oh, no  
Aha  
Alright  
Let's live lasciviously  
Down in the muck  
And when tonight's over  
You going to watch me blow  
And self-destruct  
All get together and feel alright  
All get together and feel all night  
All get together and feel alright  
Get together  
All get together and rock  
All get together and rock  
All get together and rock all night
