

# Ronan Keating, Even If I'm Gone

Every time I go away  
You know I want to stay  
I feel like I'm turning to  
I try to overcome this pain  
There's no easy way  
I'm already missing you  
As I look out over the northern lights  
I can almost feel you here tonight (2x)

Even if I'm gone  
And it feels like forever  
I pray us soon be home  
In your loving arms again  
And even if I'm gone  
There's a part of you still with me  
Close my eyes and I think how beautiful  
And I know I'm not alone.

So I'm trying to be strong  
I know I carry on  
I still feel the emptiness  
If only I can find a way  
To be together every day and it say  
Back to the loneliness  
See the full moon shine in the distant sky  
I can almost feel you by my side (2x)

See the full moon shine in the distant sky  
And I wonder if you can hear me crying  
Hear me cry.....  
Soon be home.....  
In your loving arms.....

(close my eyes)
