

# Ronnie Milsap, Everywhere I Turn (There's Your Memory)

I turn on the radio and hear your favorite song  
And all day long I hum the melody  
When I see that special look  
Between two people so in love  
I remember how it was with you and me.

Chorus:

Everywhere I turn there's your memory  
The image of you burning up inside me  
It's almost more than I can do  
To think of anything but you  
'Cause everywhere I turn there's your memory.

If I go somewhere with friends  
Someone's sure to mention you  
Then some old familiar feeling steals back in  
When I go to sleep at night you're still filling up my dreams  
How I wish you could fill up my arms again.

Chorus:

Everywhere I turn there's your memory  
The image of you burning up inside me  
It's almost more than I can do  
To think of anything but you  
'Cause everywhere I turn there's your memory...
