

# Rooney, Calling The World

I remember when you told me  
Do what you want  
Do what you want, baby  
I can't get you out of my head  
You're everywhere and everyone

I'm calling the world  
Calling everyone  
I'm calling the world  
Calling everyone  
For you, for you

Then you ran off in a hurry  
Where did you go?  
I haven't seen you since Friday  
I've been wastin' all of my time  
Worrying about you everyday

I'm calling the world  
Calling everyone  
I'm calling the world  
Calling everyone  
For you, for you

I called your best friend  
And your little brother  
But they didn't want to talk  
They said you changed your locks  
I called every number in the phonebook  
But everybody lied  
They said you wanna, you wanna hide

Calling the world  
Calling everyone  
I'm calling the world  
Calling everyone (x2)

For you, for you

I'm calling the world (x3)

For you, for you
