## Rooney, In My Pocket

I know you think about us I never thought about you You put your name with my name I can't remember your name My love is too good for you I wish you'd go and give back what You've taken And take back what you said Well, I owe you nothin' more I've spent millions

I know what you want It's right here in my pocket You can't touch it 'Cause you're bad with fragile things I know this cause you broke my heart in two

Can't you find someone like me At all those parties you love? You come home wasted tonight I can't sleep when you're locked out Oh, yeah

I'm no one with the problem I'd wish you'd go and give back what You've taken And take back what you said Well, I owe you nothin' more I've spent millions

I know what you want It's right here in my pocket You can't touch it 'Cause you're bad with fragile things I know this 'cause you broke my heart in two

I know what you want It's right here in my pocket You can't touch it 'Cause you're bad with fragile things I know this 'cause you broke my heart (x2)

I wish I never dropped my wallet With my last paycheck You saw it What didn't you wear that evening? How could you look in that outfit?
