

Rootwater, Limbic System

my life is simple I response to stimulus
I am just to be obedient - to open my eyes
The stream of energy will come into my mind
I'll do what they will tell me to do

High-tech slavery

Where are your feelings?

Dead in blue light

You don't remember freedom

You've never tried

The victim of global lie

Spectator of global war

Disinformation is the rule

My family has died in the glow of blue light

before we were dying for a long , long time

I've seen the movie but I couldn't realize

Death in my life is so inherent

Where are your feelings?

Dead in blue light

You don't remember freedom

You've never tried

On and on

On and on you're stuck here

On and on

You don't feel

Your soul

Fades away

I've seen the most hideous nooks of mind I've eaten a lot of chemicals and I found

Hell !!!

Open your mind and

May the Spirit come

You are alive - realize

You're alive
