

# Rootwater, Ubiquitous Violence

Everywhere , I feel it everywhere  
I see it in your eyes  
It's ubiquitous  
In a cry of humbled woman child  
In Police squad blue light  
in a pool of blood  
Remember  
Don't go too far  
Remember - keep out !  
I know well  
The violence - not my way  
Don't give me a reason  
and everyday I see like piece by piece  
My soul fades away  
And day by day I kill myself  
I've always thought . I'm clever enough  
I'll never -  
But never say never  
This feeling's been permeating me  
Violence here - violence everywhere  
Hidden in the law,  
Gift-wrapped  
In talking heads of noble statesmen  
Sending us to war  
Do you want to vote?  
I still can't understand it  
I feel played up  
Not my fault , agressions growing up  
Violence in my head
