

# ROSALÍA, VAMPIROS (feat. Rauw Alejandro)

My gun  
It has no insurance, it shoots itself  
He's from Barcelona, but he's in Carola  
She is not a follower, she is a wave

My gun  
It has no insurance, it shoots itself  
He's from Barcelona, but he's in Carola  
She is not a follower, she is a wave

We' have' the street lit  
We left at night, arrived during the day  
My girl close to me, my girl close to me  
It never really mattered what anyone said

You know that tonight we went algarete, eh  
You are the most that puts it  
You know that tonight we went algarete, eh  
You are the most that puts it  
Where the night is heavy?  
Baby, follow me, lets go there  
Where is it that night weighs you down?  
My cat likes me and now she is juquea

Lower the window so the smoke can come out  
The spirits scare me  
Every weeknd the moon escorts me  
From the darkness, from the evil (Oh)

We' have' the street lit  
We left at night, arrived during the day  
My girl close to me, my girl close to me  
It never really mattered what anyone said

The one that bites, spicy, wasabi  
I am natural, wabi-sabi  
She is like Don, i am Daddy  
This board pays all the Ferrari  
Like you and there is no equal  
Sharp metal 'fang'  
Vampires playing now forever, we are immortal

And you know that tonight we went algarete  
You are the evil that puts him  
And you know that tonight we went algarete (Ah!)  
You are the evil that puts him  
Where the night is heavy?  
Hey, i'm going there with my cat (Hey)  
Where the night weighs?  
Going with my cat im addicted

Ah-ah, ah-ah-ah-ah  
Ah-ah, ah-ah-ah-ah  
Ah-ah, ah-ah-ah-ah  
Ah-ah-ah, ah-ah

Life returns us  
It is said that you have to break  
That time should not be wasted  
Not just the first break  
Whoever has the smoke, take a break  
If you use the ego  
You'll make God shine  
Follow the smell of Judas

And it is that he scares you
