

Rose Funeral, Sledge Hammer Face-Lift

Crush in your face
Smash up your teeth
I want you dead
I just want to see your blood
As you suffer
You bleed to death
Your skull is fractured
Face is mutilated
My sledge
Your face
Is your fucking death
Taken your life
To satisfy
Shaking begging
I spit in your face
Now I have your
Life in my hands
Return to your grave
Feast on your remains
Mutilating your corpse
Smashing in your brains
Now your fucking dead
Guts spill from your side
As you suffer
You bleed to death
Your skull is fractured
Face is mutilated
Sledge covered in blood
That brains fall from
Suffering in blood
Each dying breath
