

Rose Maddox, Just One More Time

How many lies have you spoken how many teardrops were shed
How many hearts have you broken how many dreams are dead
Please kiss me just one more time then we'll say goodbye
Let me love you just one more time and go before I cry
[guitar]
I'm gonna dress me a pretty take one last look at the star
Sing me a sad little de-dee then lay me down and die
Please kiss me...
