

# Rosey, Heaven

send me, send me a memory  
I want it to come back to me  
sing me, sing me a melody  
I want it to come back, back to me

send me to heaven where you are  
it could be beautiful, like it was, it was before  
send me to heaven where you are  
in my wildest dreams, you are the star

I love you more than I'll let you see  
and I want you to, come back to me  
I gave you my heart, I gave everything  
and I want it to come back again

send me to heaven where you are  
it could be beautiful, like it was, it was before  
send me to heaven where you are  
in my wildest dreams, you are the star  
in my wildest dreams, you are the star

oh baby, why is it so hard  
I like to think you're  
looking down on me from above  
and can you see  
that I made it with your love  
you are the star, you are my star

send me, send me your memories  
I want them to come back, back to me

send me to heaven where you are  
it could be so beautiful,  
and it was, it was before  
you send me, yes you send me  
right up to heaven  
in my wildest dreams, there you are  
I wanna be with you, you are the star  
in my wildest dreams you are the star
