

# Rosi Golan, Yesteryear

Please remember me and we will meet in memory  
Ill ask about your day, you will laugh and start to say  
You wanted to be with me since the moment that I left  
But so much time has passed us by well promise that  
If this is what we get, then lets make the most of it  
We can dance around the clouds up here  
And well be what might have been close our eyes and just pretend  
That we are back again in Yesteryear, oh oh oh  
And so with every breath, Im breathin in to regret the day I left  
And I can feel it now, my heart is like the empty house  
Where we used to lay together past the break of day  
But now the days have passed us by, like dreams that fade  
If this is what we get, then lets make the most of it  
We can dance around the clouds up here  
And well be what might have been close our eyes and just pretend  
That we are back again in Yesteryear, oh oh oh
