

Ross Lynch, Heard It On the Radio

What's up?
Summer in the sand
He's a drummer in the band
Drop the beach
He's a DJ at the boardwalk
I smile and I tan
And her sandals in her hand
Rockin' her shades
You could almost see the eyes lock
What could be better
Than a party in the weather
With the both of us together
In the backdrop?
Everything was right
And the day turned into night
With the music and the lights
That's when we stop

Oh, I heard it on the radio
Sing it out loud
Oh, Coming down to see your show
Oh, oh, oh (Everybody now)
I heard it on the radio
Oh oh oh (Everybody now)
Coming down to see your show
(Oh, oh, oh) Play it back, play it back one time yeah
I heard it on the radio

Board and a wet suit on the day we met
You said I think if you were catching a wave
Shorts and a jet ski, all the other summer things
Kickin' it in the sun all day
We only got time for each other
And we only got time for the summer
Everybody knows, if you gotta let it go
Take the chance, make it go your way

Oh, I heard it on the radio
Sing it out loud
Oh, Coming down to see your show
Oh, oh, oh (Everybody now)
I heard it on the radio
Oh, oh, oh (Everybody now)
Coming down to see your show
(Oh, oh, oh) Play it back, play it back one time yeah
I heard it on the radio

(Okay!)
Listen to the story 'bout the party 'bout the glory
'bout the summer that would raise the bar
Anyone will tell you it was chillin', it was stellar
The best time we've had so far
Everyone together always goin' 'Never better'
And the good times go on, and on, and on
Never will forget it
Doesn't matter where we're headed
I'll remember when I hear our song
(What?)

Oh, I heard it on the radio
Oh, Coming down to see your show

Oh, oh, oh (Everybody, now!)
I heard it on the radio

Oh, oh, oh (Everybody now)
Coming down to see your show
(Oh, oh, oh) I heard it on the radio
(Oh, oh, oh) I heard it on the radio

Oh, oh, oh (Everybody now)
I heard it on the radio
Oh, oh, oh (Everybody now)
Coming down to see your show
(Oh, oh, oh)
Oh!
(Oh, oh, oh)
Play it back, play it back one time yeah
