

Roxette, Place Your Love

Sunday
Sick o' my tears
Monday morning
I could've felt much better.

Tuesday
You're in my way
I wish you would type my heart a letter.

Place your love
In my world
It's for you
It's made for you
I need time
A lot o' time
To get you off my mind
To get you off my mind.

Wednesday
Nuthin's OK
Thursday afternoon
I wish I was sleepin'.

Friday and Saturday sun
Gettin' up early but I can't get nuthin' done.

Place your love
In my world
It's for you
It's all made for you
I need time
A lot o' time
To get you off my mind
To get you off my mind.

Maybe you'll come here
Maybe you'll disappear
Maybe the clouds I fear will turn to flowers in the air
These cool vibrations
They're hitting me all the time
You've got me diggin' and divin' in the garden of my mind.

It's a high
To watch you fly
Across the sky
All the time
To watch you all the time.
