

Roxy Music, Rain rain rain

You better take what's left
cos I'm feeling rough
in dread of night getting high
and the name on the dress
stretch far too long
but it pleases the mind
and that's nice
rain rain rain
she put her head on the line
when she come on strong
a single girl about town
and she stand or fall
by the way she moves
ahead of her time
she can't lose
rain rain rain
you got trouble in mind
gets deep 'n' worse
oh please don't stop getting high
you got lust for life
it don't seem to die
gonna last for ever
getting high
rain rain rain
