

# Roy Drusky, Ain't That Just Like A Fool

Ain't that just like a fool ain't that just like a fool  
To love somebody when they don't love you ain't that just like a fool

Now I keep tellin' myself that you ain't worth this pain  
I ought to find somebody else and start all over again  
Cause all you've ever done is cause of lot of misery  
But still you're the only one there'll never be another for me  
Ain't that just like a fool...

[ whsitle ]

Well I couldn't count the times you've lied and been untrue  
Nobody but a fool would take what I've been takin' from you  
But time and time again I've walked out the door  
But you know that don't mean a thing I keep a comin' back for more  
Ain't that just like a fool...  
Ain't that just like a fool...
