

Roy Drusky, Emotion Devotion

To want and need you here with me and have to do without you (emotion)
To be a part but with you constantly and never have to doubt you (emotion)
There's can't be livin' like livin' should be
It's too hard on you and it's too rough on me
Emotion and devotion and a plain old fashion notion
Tell me this just can't be the way for love to live
Airline fights and sleepless nights and heavily disturbing sights
And everybody want to me to give there's gotta be a better way to live

I dream of hitmakers with no road where I can be with you (emotion)
No daily papers took a row my every thought of you (emotion)
I long for you lonely longing for me knowing that love remains reality
Emotion and devotion...
