

# Roy Drusky, I Love The Way That You've Been L

(I love the way that you've been lovin' me)  
I know this may not come as a surprisise you surely must have seen it in my eyes  
Darlin' it's plain as can be I love the way that you've been lovin' me  
There's so much that my heart would like to say  
And though my lips have never found a way  
Each touch explains tenderly I love the way that you've been lovin' me  
Others may search for heaven but darling I just can't see  
Why I should search for heaven when heaven is mine constantly  
Though I've become a prisoner of your love I swear by all the stars that shine above  
I never wanna be free I love the way that you've been lovin' me  
[ strings ]  
I never wanna be free I love the way that you've been lovin' me
