

# Roy Drusky, Let's Put Our World Back Together

Let's put our world back together let's try along just one more time  
Let's put our world back together without you in my world the sun don't shine

I've tried but I can't live my life without you there's darkness in my world all the time  
We had everything together then it just fell apart  
I've lost my heart so please don't take my mind  
Let's put our world back together...  
Without you in my world the sun don't shine
