

Roy Drusky, There's Always One (Who Loves A Lot)

There's always one who loves a lot and one who loves just a little
There's hurt for one who loves a lot from the one who loves just a little
There's always one more demanding there's always one more understanding
I guess I'm the one who loves you a lot while you love me just a little
[harmonica]
But it's worth all the pain of loving a lot each time you love me just a little
There's always one who loves a lot and one who loves just a little
