

# Roy Drusky, Through The Eyes Of Love

This heart of mine belongs to you take care of it be kind  
For I must go where you may lead the eyes of love are blind  
I may not see the things that I should see the danger there might be in store  
And I may do just what I shouldn't do because I'm looking through the eyes of love  
It is true I know that eyes of love might dim the view for me  
But eyes of love can see so much that other eyes don't see  
A bluer sky the sparkle in your eyes all make me realize I'm yours  
I've seen with you a world of dreams come true  
Because I'm looking through the eyes of love  
Because I'm looking through the eyes of love
