

# Roy Drusky, Unless You Make Him Set You Free

You want my admiration with your determination  
That's somehow you'll make him set you free  
You're such a sweet temptation but you know our destination  
Unless you make him set you free  
Don't be too long in doin' what you've got in mind of doin'  
I've gotta have you here with me  
We're in a situation that could ruin our reputation unless you make him set you free  
[ bass ]  
You want my admiration with your determination  
That's somehow you'll wind up with me  
You're such a sweet temptation but you know our destination  
Unless you make him set you free unless you make him set you free
