Roy Orbison, All By Myself

Well girl, don't you understand
I wanna be your lovin' man
All by myself, all by myself
I don't want no one to love you
Wanna love you all by myself

Well, meet me on the corner 'bout half past one
We're goin' out to have some fun
All by ourselves, all by ourselves
We don't need nobody with us
We can do it all by ourselves

You're a fine little girl and you know it too
Don't you know I'm in love with you
All by myself, all by myself
I don't want no one to love you
Wanna love you all by myself

You're a fine little girl and you know it too
Don't you know I'm in love with you
All by myself, all by myself
I don't want no one to love you
Wanna love you all by myself
