

Roy Orbison, Love Me Like You Did Last Night

Last night, last night, last night, you loved me, how you loved me
Oh, you made me love you last night
Oh how you teased me like you did it, when you did it last night
Pleased me like you did it, when you did it last night

You stole my heart away from me last night
Holding you tight, did it mean as much to you as it meant to me, last night
Were you just lonely, was I just a friend?, did you want me only, or did you pretend?
Was it just one night to hold you tight? then make tonight just like last night

Come on and love me like you did it, when you did it last night

Hold me like you did it when you did it last night
I want you to stay and love me all the way
Say sweet things to me like you said last night, hang on so tight
Now it's alright, just like last night I feel so fine now, you are mine now
Yeah, just like last night, yeah kiss me like you did it
When you did it last night, yeah, touch me like you did it
When you did it last night, ah love me like you did it
When you did it last night, last night
