## Roy Orbison, Summer Song

(Roy Orbison/Joe Melson)

Our summersong lingers on in my memory Since you've been gone from me Summer's come again, and again I'm alone Wish you were near when I hear our summersong

Our summersong lives on and on and on Inside of me, and it will, yes Until you return to me

Oh, when the leaves fall away from the trees I'll still be blue all winter long And I'll sing our summersong and dream of you I'll sing our summersong and dream of you
