

# Roy Orbison, What Kind Of Love

I'll give you the best I can give you, baby  
That's all I can give  
We'll live it the best we can live it, baby  
As long as we live

What kind of love never turns you down  
what kind of love lifts you off the ground  
Turns your life around  
What kind of love makes you go out in the wind  
and the driving rain

What kind of love runs through your heart with  
a pleasure so close to pain  
What kind of love  
Only this love that I have

I'll show you the best I can show you, baby  
That's all I can show you  
I'll know you the best I can know you baby  
As long as I know you

What kind of love never turns away  
what kind of love never makes you pay  
Hears you when you pray  
What kind of love makes you go out in the wind  
and the driving rain  
What kind of love runs through your heart with  
a pleasure so close to pain  
What kind of love  
Only this love that I have

This love I know is all I have  
This love I have is all I know  
So I won't let go

What kind of love makes you go out in the wind  
and the driving rain  
What kind of love runs through your heart with  
a pleasure so close to pain  
What kind of love only this love that I have  
What kind of love only this love that I have
