

# Royal Blood, High Waters

The dogs are coming for my throat  
Coast to coast, I'm rushing  
God knows I'm gonna need something  
Someone to tow me out the smoke  
Before I choke  
On counterfeit antidotes, I'm laughing  
Deep diving, can't wash it off my skin  
Caving, just keeping my

Head out high waters  
Down and out in the dust  
Know it's never enough  
Always just a little too  
Late goin' under  
Goin' out in the sun  
Can't keep my head up, high waters  
I'm low, just come

Waters, waters  
Waters, keep my head up high  
Waters, waters  
Waters, keep my head up high

The traps are closing and I'm toast  
Half afloat, I'm breaking  
God knows I'm gonna need saving  
Someone should drag me out of Hell  
Through the shadows, through the swirl  
Break the spell, I'm coming  
Deep diving, can't wash it off my skin  
Waving, just keeping my

Head out high waters  
Down and out in the dust  
Know it's never enough  
Always just a little too  
Late goin' under  
Goin' out in the sun  
Can't keep my head up, high waters  
I'm low, just come in

I'm low, just come in

Just keeping my head out high waters  
Down and out in the dust  
Know it's never enough  
Always just a little too  
Late goin' under  
Goin' out in the sun  
Can't keep my head up, high waters  
I'm low, just come

Waters, waters  
Waters, keep my head up high (I'm low, just come in)  
Waters, waters  
Waters, keep my head up high
