

Royal Crown Revue, Honey Child

(Deadric Malone)

Sometimes your love is just like honey
So sweet and wild-so sweet and wild
Sometimes your love is just like menthol
So cool and nice-so cool and nice
That's why I don't want no other lover
Nobody but you

Honey child, honey child

You got a funny little way
A way of teasing
Feels so right, yeah so right
You've got a way-such a way
Through the night, all through the night
That's why I don't want no other lovin'
Nobody but you

Honey child

You got a brand of lovin'
That sets my soul on fire
You got a brand of kissin'
That drives me wild
That's why I don't want no other lover

That's why I don't want no other lover
That's why I don't want no other lover
Say, that's why I don't want no other lover
Say, that's why I don't want no other lover, baby
