

Royal Crown Revue, Take A Long Drink For Me

She said please, take a long drink for me
This hard luck gal, she don't like to plead
So light my smoke.
Take a long drink for me.

She said please, have a seat right next to me
You've got a smile - like a guy I used to see
So be a pal.
Take a long drink for me.

She said please, have a long look at me
Just pretend, and smile longingly
Just like old times.
Take a long drink for me.
